Genus	Species	Origin	Description	Light Condition	Potential Plant Size	Growing Temps	Container size - mm					
							100	140	200	250	300	>300

Ceratozamia	hildae	Mexico	Interesting leaf pattern. Has plumose, grouped leaflets.	4	S	1-2		\$25	\$75			
	kuesteriana	Mexico	Develops trunk. Dark green narrow foliage v. adaptable.	4	S	1-3		\$25		\$75		
	robusta sp. Belize	Belize	Robust growing bronze emergent leaves.	3	M	1-2			\$40			
	robusta sp. santiago tuxla	Mexico	Large erect growing - 2m long leaves	3	M	1-2			\$40			
	sp. Palma Sola	Mexico	Lime green emergent leaves to 1m.	4	M	1-2		\$20				
	sp. presa miquel alamen	Mexico	Rare in cultivation. Orange flush leaves to 1.5m long	5	S	1-2		\$60				
	whitelockiana	Mexico	Glaucous new leaves. Slow Growing	1	3	1-2		\$100				
Cycas	bougainvilleana	PNG	Large growing. Feature plant 2m+ leaves.	2	L	1-2						\$120+
	chamberlainii	Phillipines	Shorter erect leaves, dark green. Semi-formal look.	2	M	1-2			\$35	\$45		
	changjiangensis	Hainan	Small growing	2	M	1-3			\$30			
	circinalis	India	First described sp. True plant from India.	2	M	1-2			\$50			
	curranii	Philippines	Similar to C. rumphii but with narrow leaflets.	2	L	1-2						\$120+
	debaensis	China	Spectacular plant, multi divided leaflets, full sun.	1	M	1-3			\$65			
	hainanensis	China	Showy erect leaves. Dark green. Very adaptable.	2	L	1-2				\$35		
	lindstromii	Vietnam	Small subterranean. Short dark green leaves.	2	S	1-2				\$110		
	micholitzii	Vietnam	Dark green erect divided leaflets	4	S	1-2			\$45			
	micholitzii x revoluta	Hybrid	Hybrid with interesting results	3	S	1-2				\$60		
	panzhihuaensis	China	Thick trunk. Short leaves. Narrow leaflets. Very cold hardy	2	M	1-4					\$60	
	papuana	PNG	Similar to C. media	3	1	1-2		\$30				

281 Buckley Road, Burpengary, Qld, 4505. Phone: (07) 5498 6868 E-mail: sales@cycadconnections.com.au Website: www.cycadconnections.com.au

Genus	Species	Origin	Description	Light Condition	Potential Plant Size	Growing Temps	Container size - mm					
							100	140	200	250	300	>300

Cycas	pectinata	Thailand	Large trunk, fine leaf. Very ornamental.	2	L	1-2							\$130+
	revoluta	Japan	Most widely used cycad in the world.	2	L	1-3						\$50	\$90+
	seemannii	N.Caledonia	Few spines - user friendly!	2	L	1-2						\$45	\$75+
	siamensis	Thailand	Slightly variable species good shape plant.	2	M	1-2				\$90			
	taitungensis	Taiwan	Exc. ornamental ldsce plant. Fast grower, sim.revoluta	2	L	1-3					\$50		\$75+
	tansachana	Thailand	Very rare in habitat. Large growing trunk.	2	L	1-2			\$75				
	vespertilio	Philippines	New species. Deciduous in cool climate.	2	M	1-2				\$80	\$100		\$120+
	wadei	Philippines	Narrow leaflets, upright growth. Cones when small.	2	M	1-2							\$150
Dioon	angustifolium	Mexico	Small, slow growing. Suckers readily. Compact.	2	S	1-3		\$15	\$70	\$90			
	califanoi	Mexico	Stiff leaflets - grey/green. New leaves woolly. Hardy.	2	M	1-3				\$60	\$130		\$200
	edule var edule	Mexico	Blue/green leaflets. Slow growing. Small white cones.	2	M	1-3				\$90			
	holmgrenii	Mexico	Rare, medium sized Dioon. Green colour.	2	M	1-3				\$130			
	mejiae	Honduras	Fast growing, large leaflets. Very woolly new leaves.	1	L	1-2			\$20	\$60	\$85		\$150+
	merolae	Mexico	Medium length leaves, full sun.	2	L	1-2	\$20		\$65		\$160		
	purpusii	Mexico	Erect habit. New leaves very hairy - rare.	2	L	1-3			\$75				
	sonorensis	Mexico	Shorter leaved to 1m. Glauous blue.	2	M	1-3			\$80	\$130			
	sp.Palma Sola	Mexico	Edule type. Different looking cones, leaves < 1m	2	M	1-3				\$95			
	sp. Querttaro	Mexico	Edule type. Blue/green coloured leaves, pink flush	2	M	1-3		\$15					
	sp. Victoria	Mexico	Edule type. Very large cones.	2	M	1-3			\$35				
	spinulosum	Mexico	Large growing. Exc. landscape plant. Adaptable.	1	L	1-3					\$65		\$150+
	tomasellii	Mexico	Falcate Leaflets/ Rare in cultivation	2	M	1-3		\$35

Genus	Species	Origin	Description	Light Condition	Potential Plant Size	Growing Temps	Container size - mm					
							100	140	200	250	300	>300

Encephalartos	altensteinii	RSA	Slightly green recurved foliage. Very thick trunk.	2	L	1-3								\$300+
	arenarius	RSA	Impressive plant, blue green leaves.	1	M	1-2				\$75				
	cerinus	RSA	Extinct in the wild. Grey green leaves.	2	S	1-3			\$80					
	concinus	RSA/Zimbab	Dark green, elegant feature plant.	2	M	1-3		\$30						
	dyerianus	RSA	Blue leaves, erect growing - rare.	2	M	1-3		\$65						
	eugene-maraisii	RSA	Greyish green leaves. Rare in cultivation. Ornamental.	2	L	1-3			\$120					
	gratus	Mozambique	Very large dark green leaves 3m long. Large red cones.	2	L	1-3				\$45	\$125			
	horridus	RSA	Blue leaves, very spiny. Slow Growing.	2	S	1-3			\$130					
	inopinus	RSA	Rare. Blue/green from a dry area.	2	M	1-3	\$65							
	ituriensis	D.R.Congo	Very large growing plant - up to 3m leaves.	1	L	1-2		\$45						
	laurentianus	D.R.Congo	Very large and fast growing.	1	L	1-2		\$45						
	lehmannii	RSA	Spectacular blue, erect, few spines	2	M	1-3			\$130					
	munchii	Mozambique	Blue/green. Erect. Suckers freely.	1	M	1-2					\$150	\$200+		
	natalensis	RSA	Easy to grow. Has variable leaf shape and large cones.	2	L	1-3							\$200+	
	pterogonus	Mozambique	Rare. Unusual winged male cones.	2	M	1-2		\$40						
	sclavoi	Tanzania	Blue/Green leaves. Ornamental orange cones.	2	M	1-2	\$15	\$25						\$200+
	senticosus	RSA	Spectacular. Similar to E. natalensis.	2	M	1-3		\$25	\$35		\$125			
	trispinosus	RSA	Blue. Great feature plant.	2	M	1-3			\$85	\$125				
	turneri	Mozambique	Rarely grown specie. Yellow cones.	2	M	1-2		\$30						
	whitelockii	Uganda	Dark green, long leaves. Massive trunk.	1	L	1-2		\$30						
	woodii x natalensis x woodii	Hybrid	Rare. 2 nd generation E. woodii back-cross.	2	L	1-3			\$95					

281 Buckley Road, Burpengary, Qld, 4505. Phone: (07) 5498 6868 E-mail: sales@cycadconnections.com.au Website: www.cycadconnections.com.au

Genus	Species	Origin	Description	Light Condition	Potential Plant Size	Growing Temps	Container size - mm					
							100	140	200	250	300	>300
Microcycas	Calicoma	Cuba	Very rare cycad. Distinctive leaf. Limited numbers avail.	2	M	2			\$250			
Stangeria	eriopus	RSA	Unusual species often mistaken as a fern. Wide leaflets.	1	S	1-2		\$35	\$60			
Zamia	amblyphyllidia	Cu/PR/Jam	Hardy plant. Quite wide leaflet. Very adaptable.	1	S	1-3			\$30			
	amblyphyllidia x sp. new providence	Hybrid	Hybrid. Wide, bronze coloured emergent leaflets.	1	S	1-2			\$50			
	angustifolia	Bahamas/Cuba	Narrow leaves emerge chocolate. Full sun.	2	S	1-3			\$45		\$95	
	cunaria	Panama	Small cycad, leaves up to 1.5m long, multi heads.	4	S	1-2	\$35					
	fischeri	Mexico	Compact feature plant, great for borders. Very Rare.	1	S	1-2		\$25				
	furfuracea	Mexico	Most popular Zamia. Very stiff leaves and leaflets.	2	S	1-2					\$45	\$100+
	hybrid 'interport'	Hybrid	Outstanding hybrid. Lime green. Great in any position.	1	S	1-2					\$90	
	inermis	Mexico	Lime green leaves. No spines.	2	S	1-2					\$95	
	integrifolia	Florida	Very wide spread. Grows in a range of climates.	1	S	1-3					\$60	
	lacondona	Mexico	Very rare in cultivation. 2m long reddish emergent leaf.	6	S	1		\$45				
	lecointei	Brazil	Rare. Hard to grow specie.	6	S	1			\$150			
	muricata	Ven/Colum	Common grown cycad that should be more widely grown.	5	S	1-2						
	nana	Panama	Small growing. Has been incorrectly sold as Z acuminata but this one correctly identified as Z nana	4	S	1-3		\$35				
	paucijuga	Mexico	Neat appearance. Lime green. Adaptable.	4	S	1-3						
	picta	Mexico	Naturally variegated. Leaves dark green with yellow spots.	4	S	1-2		\$15	\$25			
	polymorpha	Mexico	Variable leaf form. Lime green foliage.	4	S	1-3			\$30			
	portoricensis	P/Rico	Perfect for borders and edges. Bright green & compact.	2	S	1-3		\$20				
Zamia	pumila	Dom / Repub	The first Zamia described. Dark green stiff leaflets.	2	S	1-3					\$45	

281 Buckley Road, Burpengary, Qld, 4505. Phone: (07) 5498 6868 E-mail: sales@cycadconnections.com.au Website: www.cycadconnections.com.au

Genus	Species	Origin	Description	Light Condition	Potential Plant Size	Growing Temps	Container size - mm					
							100	140	200	250	300	>300

Zamia	purpurea	Mexico	Showy orange to copper new leaf	5	S	1-2	\$70	\$100				
	pygmaea	Cuba	Dark green, small growing. Very Rare.	1	S	1-2		\$40				
	pygmaea hybrid	Hybrid	Great hybrid. Compact with great landscape potential.	1	S	1-2		\$50				
	sandovalii	Honduras	Rare in cultivation. Cliff growing, green leaves to 2m.	6	S	1		\$45				
	skinneri	Panama	Corrugated leaflets up to 30cm long.	6	S	1-2			\$45			
	sp. Cayman Island	Bahamas	Form of Z integrifolia with wide thick leaves.	1	S	1-2			\$25			
	sp. Cuba	Cuba	Small erect growing tan-green cones.	2	S	1-2			\$55			
	sp. Florida coontie	USA	Narrow leaves. Much narrower than Z integrifolia.	1	S	1-3		\$20				
	sp. New Providence	Bahamas	Z. integrifolia-like. New leaves emerge chocolate brown.	1	S	1-2			\$50			
	spartea	Mexico	Very narrow leaflets. Bronze emergent leaves.	2	S	1-2			\$95			
	splendens	Mexico	Spectacular new red leaf. Okay in cool protected areas.	5	S	1-2		\$35	\$50			
	standleyi	Honduras	Rare in cultivation. New leaves emerge purple.	1	S	1-2		\$30	\$50			
	vazquezii	Mexico	Similar to Z. fisherii but larger and more upright.	1	S	1-3		\$25	\$40			

Seeds Available:

		A\$ per 1000
Cycas	revoluta	\$250.00
Cycas	taitungensis	\$450.00
